Denver's Community Planning and Development Department (CPD) invite you to participate in the next public meeting for the Decatur (Federal Blvd) Station Area Plan.

### **Come and provide comments on the revised concept based on the relocation of the Decatur Station to the Federal Station!**

With your participation, the planning process that began in January 2007 has established a collective long-range vision for land use, transportation and community needs in the station area. The Decatur (Federal Boulevard) station area plan will reflect this vision. The workshop will begin with a presentation of the revised plan concept.

Workshop attendees will be asked to review and provide comments on the revised design alternative, including a proposed land use and circulation framework. This feedback will be used to identify the final areas of design refinement.
