Please use the space below or attach a written statement explaining the reasons why you believe the above nominee should receive an Environmental Champion Award. Please check all the “key selection criteria” boxes below that apply and briefly explain the environmental benefit of the new practice, activity, or process. You may provide any additional information that supports your nomination.

- Reduces environmental liabilities
- Reduces pollutants released into air or water
- Reduces waste generation (solid or hazardous)
- Reduces costs or improves efficiency, while ensuring compliance
- Increases the use of recycled and reused products
- Conserves energy, water, or other natural resources
- Demonstrates continuous environmental improvement
- Demonstrates environmental leadership

Submit this form and any supplemental materials by mail or fax to:
