What is the Santa Fe “A” Local Maintenance District?

The Santa Fe “A” Local Maintenance District is located along both sides of North Santa Fe Drive between West 6th Avenue and West 10th Avenue. This District was established by City Ordinance in 1996 for the maintenance and continuing care of streetscape features that exist within the District. These streetscape features may include trees, irrigation, decorative pedestrian lights, sidewalk, benches and trash receptacles. A District Board of Directors represents the interests of the District and the property owners. The Board develops an annual budget for the cost of maintaining the District. Property owners within the District are then annually assessed based on the proportion of their front footage to the total front footage of property within the District.

Denver’s Business Assistance Center

Since opening its doors in January 2005, the Denver Business Assistance Center has strengthened Denver’s business climate by helping more than 10,000 small businesses. Offered through the Denver Office of Economic Development, the center supports Denver’s small businesses in their interactions with local, state, and federal government. The center helps guide businesses through licensing, permitting and regulatory issues, while offering research tools and community resources to help small businesses thrive. Staff assists businesses with start-up information, financial assistance resources, workforce development, training, enterprise zone credits, permitting assistance and more.

The center is located in the Wellington E. Webb Municipal Office Building atrium, 201 W. Colfax Ave. For more information, call 720.913.1715 or visit <http://www.milehigh.com/business/business-assistance-center>.

Who to Contact

There are two types of contacts that are available to property owners in the District, depending on the issue:

District Related Maintenance Issues

Streetscape features that are located in the sidewalk are generally the responsibility of the District. Examples include making sure that the pedestrian lights are working, that trees are being watered and that trash is being removed. If a property owner sees that there is a deficiency with the maintenance of the streetscape items, they may contact any of the following District Board members:

- Ted Gill 303.693.1302 or email to tmg2121@yahoo.com
- Gary Reed 303.573.8084 or email to garyr@reedphoto.com
- Debra Stoner 303.388.8121 or email to deb821santafe@msn.com
- Judith Weaver 303.333.2820 or email to jweaver100@aol.com

All Other City Related Issues (Non-Emergency Only)

The City has created a 3-1-1 service designed to provide one number to call for all of your City and County of Denver **non-emergency** questions, problems and concerns. This service can be contacted by dialing 3-1-1 or can be accessed over the internet at:

https://denver.311colorado.com/psp/311PROD/CUSTOMER/CUST/h/?tab=PAPP_GUEST

Typical issues that can be reported to 3-1-1 include:

- Graffiti
- Potholes
- Broken or damaged curb
- Accidents or vandalism resulting in damaged or destroyed streetscape features
- Noise complaints
- Street lights that are not working. Street lights are those lights that are generally 35 to 40 feet high. The smaller pedestrian lights that are approximately 11 feet high are usually maintained by the District
- Most other non-District related maintenance issues
