What is the 22nd Street and Park Avenue West Local Maintenance District?

The 22nd Street and Park Avenue West Local Maintenance District is located along both sides of 22nd Street from Blake Street to Stout Street; and along both sides of Park Avenue West from Potter Court to Stout Street. This District was established by City Ordinance in 1994 for the maintenance and continuing care of streetscape features that exist within the District. These streetscape features may include trees, irrigation, decorative pedestrian lights and benches. Trash removal and sidewalk maintenance is **not** the part the District's responsibilities.

A District Board of Directors represents the interests of the District and the property owners. The Board develops an annual budget for the cost of maintaining the District. Property owners within the District are then annually assessed based on the proportion of their front footage to the total front footage of property within the District.

The District is located along both sides of 22nd Street from Blake Street to Stout Street; and along both sides of Park Avenue West from Potter Court to Stout Street
