

# Theme

*"The Man in the Moon"*

Hampden Heights Park is located at the intersection of S. Dayton Ct. & E. Cornell Ave. in Denver. The park includes an existing concrete half-moon, which inspired the theme "The Man in the Moon". The design goal is to create a playground for children of all ages and abilities and to include play opportunities, such as informal play areas & play structures that develop a child's imagination, physical and social skills.
