

Tennyson Streetscape Phasing

- Late September to Early October
- Late September to Early October
- Early October to Late October
- Mid October to Early November
- Mid October to Early November
- Early November to Late November
- Late November to Mid December
- Early December to Mid December

We are beginning the removal and replacement of the sidewalk phase of our project. Above is a tentative phasing plan for our work. We will work to keep access open at all times, with the exception of some brief time during the removals themselves and during the placement of the concrete. Temporary access will be maintained at every other time. Prior to beginning this work, crews will talk with the affected business owners/residents to discuss the timing of all work. This is all dependant on normal weather for October, November and December.
