Community Input Comment Sheet
Denver Indoor Recreation Center Project

Instructions: please print your comments in the space provided below so that they may be incorporated into the discussions of the Recreation Center Task Force.

1. What do you like most about the draft recommendations that have been presented?

2. What most concerns you about the draft that has been presented?

3. How could these draft recommendations be improved upon? Please be as specific as possible.

Your comments and suggestions will be compiled for consideration by the Recreation Center Task Force at a meeting later this month. They will make appropriate changes and finalize their recommendation which will be presented to the Manager of Parks and Recreation, the Parks and Recreation Advisory Board, the Mayor's Office and City Council in a series of meetings in March. Ultimately, the Manager of Parks and Recreation will accept the recommendations as a long range plan and use them to formulate annual workplans over the coming years. Capital expenditures, fee changes and some other recommendations will require additional public process and may require City Council approval as they are actually pursued, so there will continue to be opportunities for your input.

Information about this process and future meetings is available on the Parks and Recreation Department Web site at www.denvergov.org
Please remain committed and engaged in creating the best Recreation System for Denver citizens.
