

# B. Mobility Improvement Options: Within Existing Pavement and Right-Of-Way

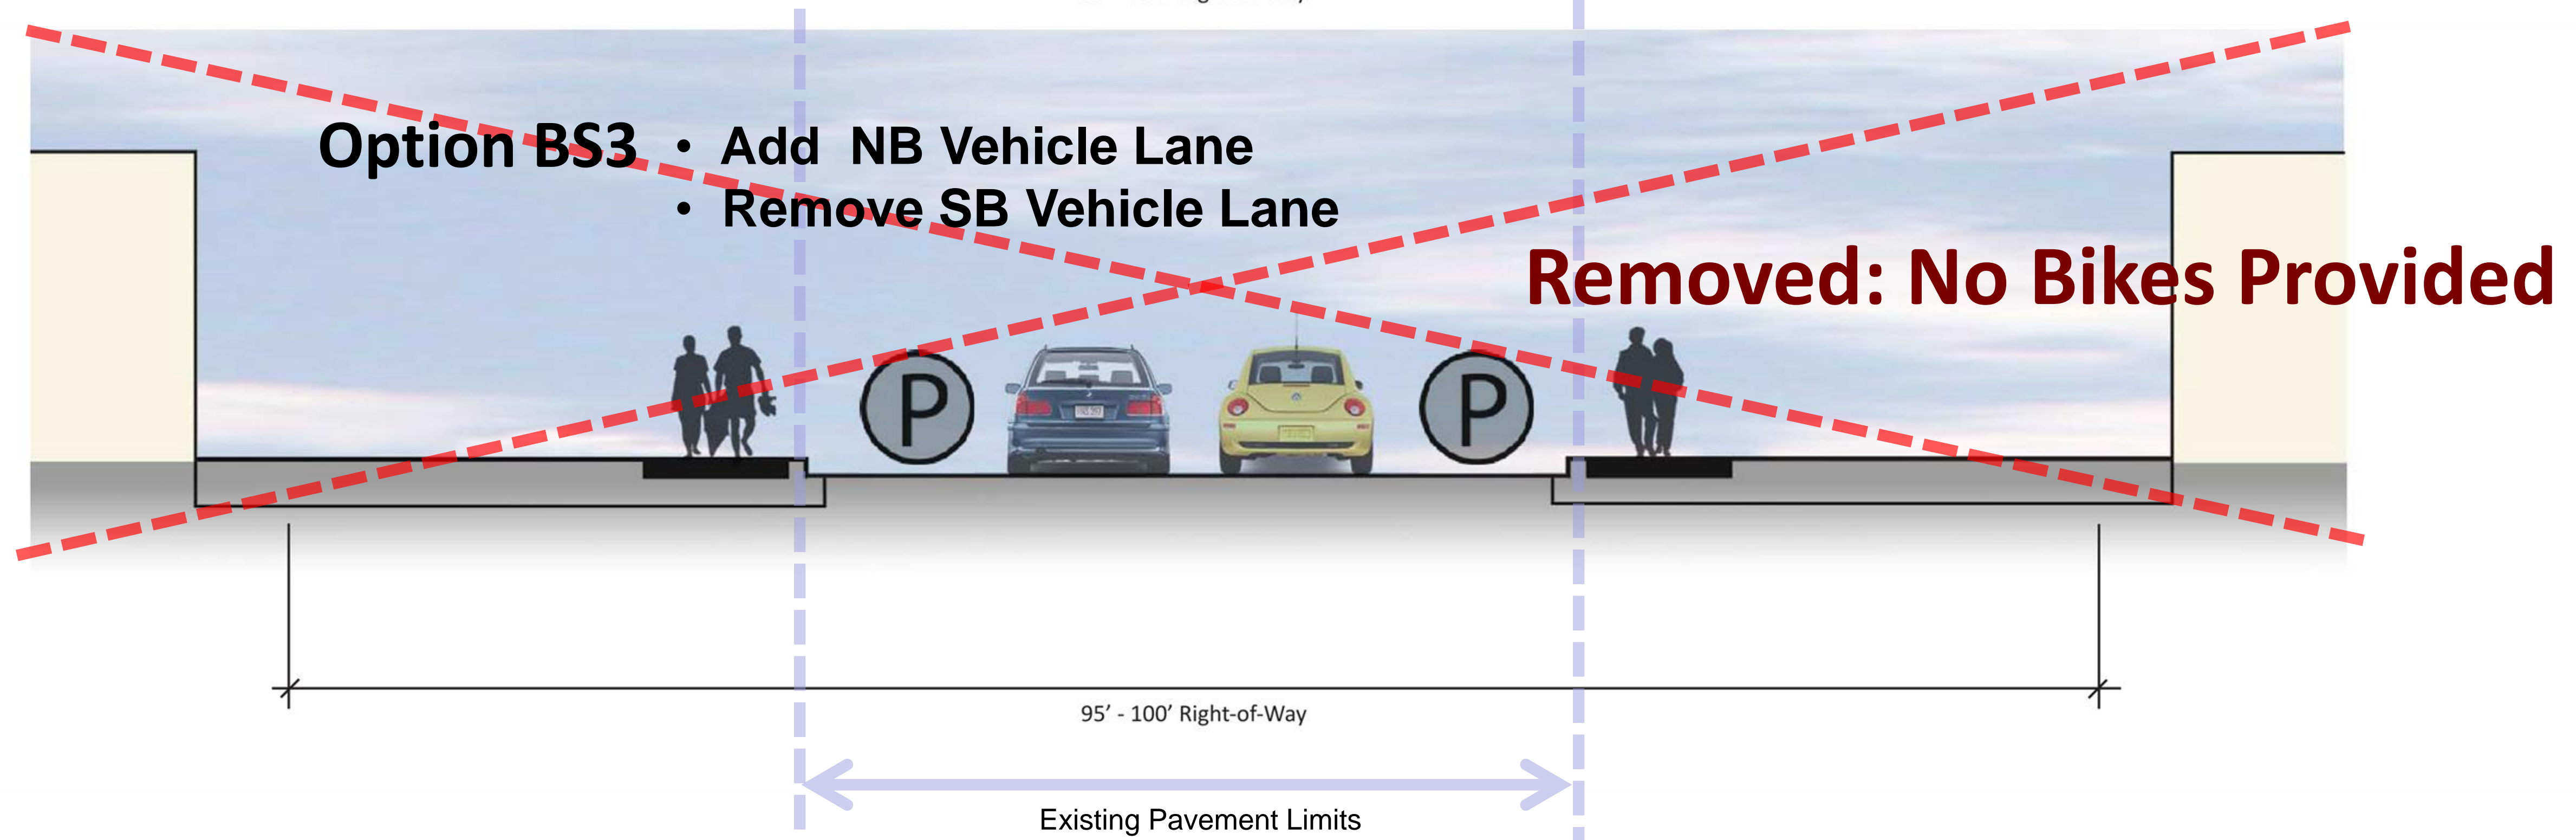

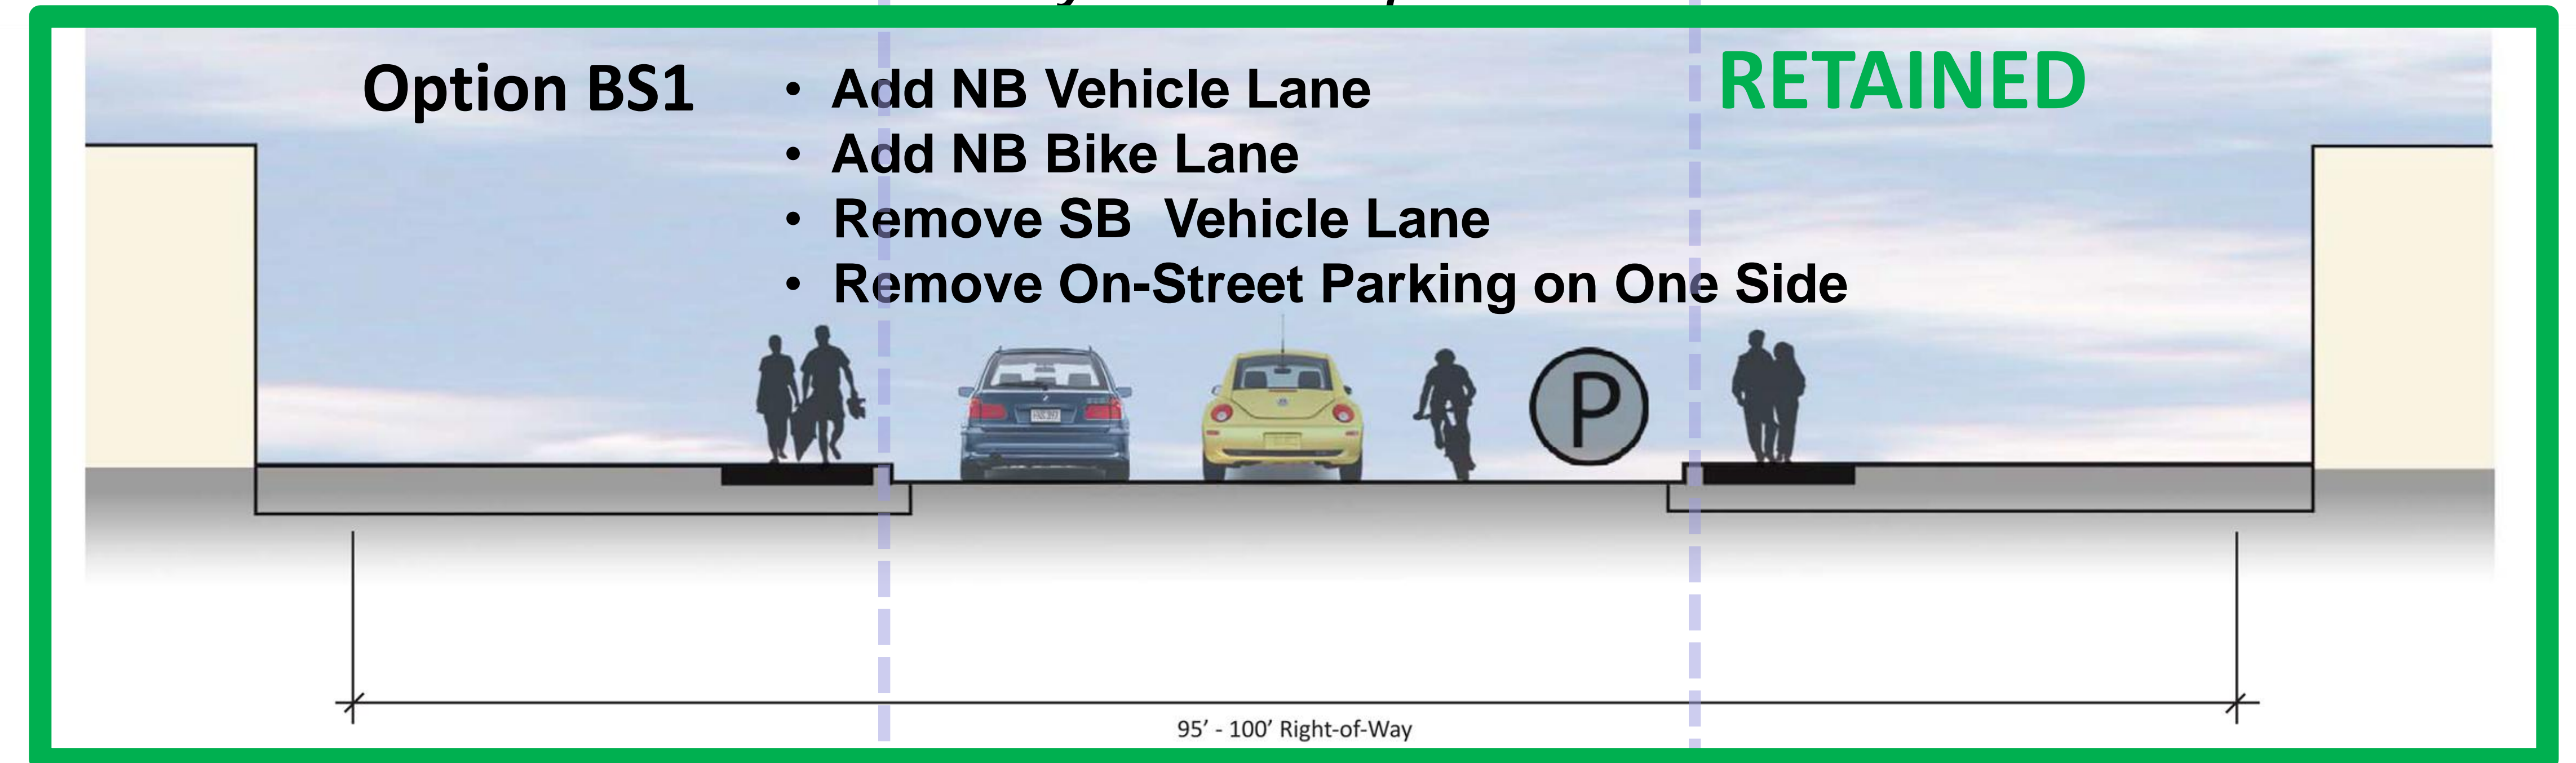

## One-Way Couplet Options

### Quebec Options

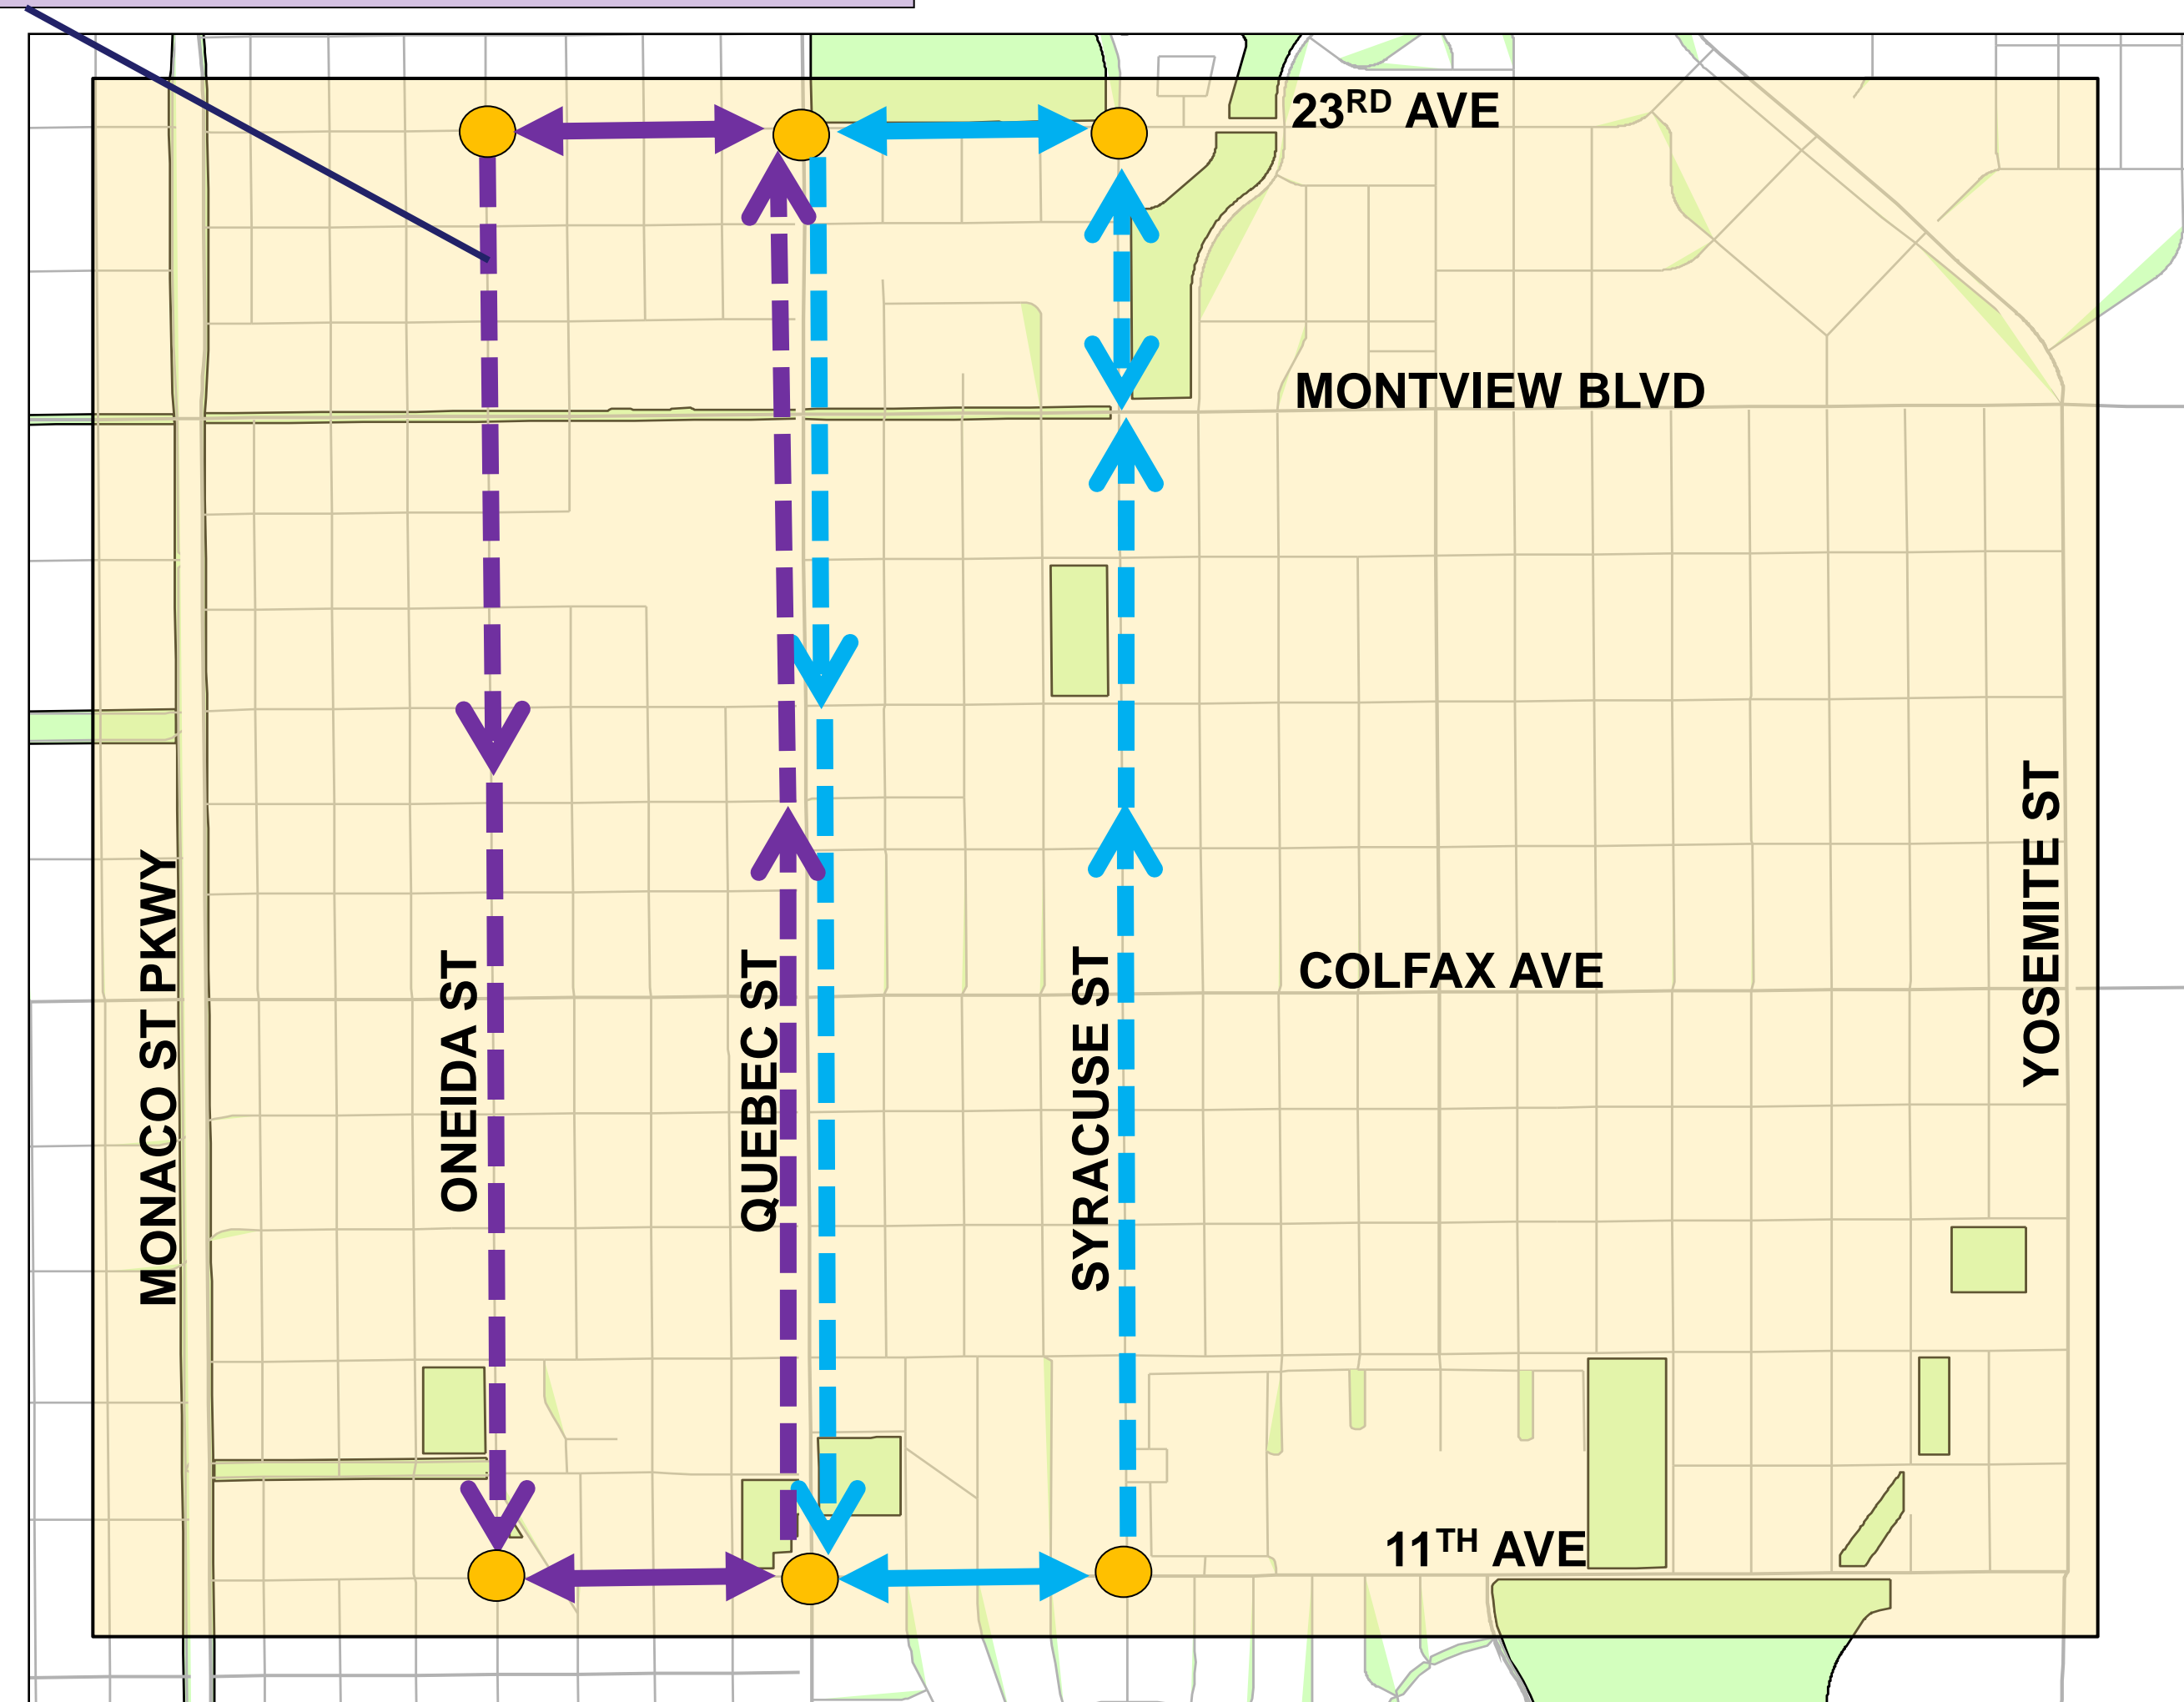

### Syracuse Options

**CONCEPT – For Discussion Only**

**One-Way Couplet Option: NB Quebec St/ SB Oneida St also considered.**  
This Option was removed as it does not strongly support vehicle and transit travel patterns.

● Intersection Reconstruction Required to Improve Traffic Flow

--- Roadway Reconfiguration Required

↕ Roadway Widening May Be Required

NOTE: All perspectives looking North.  
Minor pavement widening may be needed north of 23<sup>rd</sup> Ave, south of 11<sup>th</sup> Ave, at intersections and along 23<sup>rd</sup> Ave and 11<sup>th</sup> Ave.
