

Section 1. Examination Lists.

*Adopted March 26, 2005*³

- A. An examination list shall be established after the initial test phases of an examination process. It shall be made up of the names, in rank order, of those applicants⁴ or candidates⁵ who have successfully completed and/or passed all initial test phases in the examination. The names shall be listed in rank order as determined by the ranking system specified in the examination announcement. An examination list shall contain such additional information as specified in Commission Rule 13.⁶
- B. Examination lists shall be working documents for internal Commission use only and shall be considered confidential, except as required by law.
- C. Examination lists for original appointment:
1. An applicant's name shall remain on an examination list for original appointment for no longer than twelve (12) months following the date of initial testing, unless the applicant has been selected for further participation in the additional examination and screening phases.⁷ If selected for further participation, the applicant's name shall remain on the examination list until approved for placement on the respective eligible register, or effectively denied approval by disqualification or Commission action.
 2. If any applicant is permitted by Commission Rule and the pertinent examination regulations to retest for a particular position/rank while his/her name remains on the examination list, then the following shall apply:
 - a. If the applicant has not been already selected for additional examination and screening phases, when the applicant's name is again merged into the examination list, the applicant's most recent test results shall replace the prior test results. The most recent test results will then be used to determine a new rank order placement of the applicant's name on the examination list, as provided by the examination regulations.

³ **Editor's Note:** Incorporates and amends the provisions of Rule 7 § 1(A) existing prior to March 26, 2005. (Prior section *Amended July 2, 1990; March 27, 1998; October 27, 2000.*)

- b. If the applicant has been already selected for additional phases, when the applicant's name is again merged into the examination list, the prior test results used for rank order placement, and the applicant's selection for further participation in the examination, shall stand. The applicant's name will then be placed on the examination list an additional time, in new rank order, according to the results of the applicant's most recent testing cycle.
3. Separate examination lists may be established from any examination for original appointment in order to provide for the establishment of separate eligible registers for original appointment to a particular rank and grade, as provided herein below in Section 2 (B).
4. At the discretion of the Commission, any examination list for original appointment may be frozen and/or dissolved and subsequently replaced with a new examination list established through an examination process.

2.  - b. The removal of the applicant's name from the (non-deferred) eligible register from which the applicant was initially certified for consideration for original appointment and was deferred.
 - c. After twelve (12) months from the date of the Commission's approval for placement on the deferred appointment eligible register.
 - D. An applicant's name shall be listed on an eligible register in rank order according to the final examination score, as determined by the scoring system specified in the examination announcement, and in conformance with the provisions of the Commission Rule 5 regarding examinations for original appointment.  - F. Any one applicant may have his/her name entered on an ongoing eligible register for original appointment more than once. the register, in the appropriate rank order, without regard to and without requiring removal of any prior entry of the applicant's name on the same register.

- G. The name of an applicant not receiving original appointment shall remain on an ongoing eligible register for original appointment for no longer than 24 months following the date of approval for entry of the name on the register. When an applicant's name has been entered on an eligible register more than once, this time limitation shall be applied separately to each entry.
- H. At the discretion of the Commission, any ongoing eligible register for original appointment may be frozen and/or dissolved and subsequently replaced with a new eligible register established through a new or modified examination process.
