¹**Section 1. Examination Lists.**

- A. An examination list shall be established after the initial test phases of an examination process. It shall be made up of the names, in rank order, of those applicants² or candidates³ who have successfully completed and/or passed all initial test phases in the examination. The names shall be listed in rank order as determined by the ranking system specified in the examination announcement. An examination list shall contain such additional information as specified in Commission Rule 13.
- B. Examination lists shall be working documents for internal Commission use only and shall be considered confidential, except as required by law.
- ⁴C. Examination lists for original appointment:
 - 1. An applicant's name shall remain on an examination list for original appointment for no longer than twelve (12) months following the date of initial testing, unless the applicant has been selected for further participation in the additional examination and screening phases⁵. If selected for further participation, the applicant's name shall remain on the examination list until approved for placement on the respective eligible register, or effectively denied approval by disqualification or Commission action.
 - 2. If any applicant is permitted by Commission Rule and the pertinent examination regulations to retest for a particular position/rank while his/her name remains on the examination list, then the following shall apply:
 - a. If the applicant has not been already selected for additional examination and screening phases, when the applicant's name is again merged on to the examination list, the applicant's most recent test results shall replace the prior

¹ In the proposed Rule 7, the provisions governing Examination Lists, Eligible Registers for Original Appointment, and Eligible Registers for Promotional Appointment have been expanded and are each covered in a separate Section.

² As used in this Rule, the word "applicant" refers to an individual participating in the examination, screening, and/or selection process for original appointment.

³ As used in this Rule, the word "candidate" refers to an individual participating in the examination, screening, and/or selection process for promotional appointment.

⁴ The proposed language updates and clarifies administrative provisions generally applicable only to examination lists for original appointment. The provisions take into account the fact that certain original appointments may arise out of ongoing testing and ongoing eligible registers. The language also provides for circumstances whereby applicants may be permitted to participate in testing for original appointment more than once per year. It also adds provisions to correspond with the establishment of separate eligible registers applicable to original appointments.

⁵ See Commission Rule 5 § 2 (8-31-04) on Selection of Applicants for Additional Examination and Screening Phases.

test results. The most recent test results will then be used to determine a new rank order placement of the applicant's name on the examination list, as provided by the examination regulations.

- b. If the applicant has been already selected for additional phases, when the applicant's name is again merged on to the examination list, the prior test results used for rank order placement, and the applicant's selection for further participation in the examination, shall stand. The applicant's name will then be placed on the examination list an additional time, in new rank order, according to the results of the applicant's most recent testing cycle.
3. Separate examination lists may be established from any examination for original appointment in order to provide for the establishment of separate eligible registers for original appointment to a particular rank and grade, as provided herein below in Section 2 (B)(1-3).
 - ⁶4. At the discretion of the Commission, any examination list for original appointment may be frozen and/or dissolved and subsequently replaced with a new examination list established through an examination process.

⁷**Section 2. Eligible Registers for Original Appointment.**

- A. An eligible register for original appointment shall contain a rank order listing of the names of approved applicants from the corresponding examination list. Only those applicants: 1) who have successfully completed and/or passed all phases of the entry-level examination and screening process required for the particular rank and grade; 2) who meet any special qualifications or requirements related to the particular register; and 3) who have been approved by the Commission (based on the background review), shall be placed on the eligible register.
- ⁸B. Eligible registers for original appointment shall be established and maintained to accommodate anticipated personnel needs of the Department of Safety. Separate eligible registers for original appointment to the same entry-level rank and grade shall/may be established as follows, based on applicable eligibility requirements or special skill requirements:

⁶ This proposed provision is added for informational purposes to clarify the Commission's existing authority.

⁷ The existing language in this section is drawn from current Section 1 (B). New language updates and clarifies administrative provisions and requirements from Rule 5, Examinations for Original Appointment. New provisions are also added to this Section 2 to reflect, distinguish, and clarify administrative procedures for handling ongoing eligible registers and also for handling the separate eligible registers applicable to original appointments.

⁸ Proposed new provisions are added to clarify the establishment of separate eligible registers. See also Charter § 9.3.11(C).

1. Separate eligible registers shall be established for original appointment to the rank and grade of Police Officer Recruit as an entry-level civilian, cadet, certified peace officer, and as a Reserve Police Officer.
 2. Separate eligible registers shall be established for original appointment to the rank and grade of Firefighter Fourth Grade as an entry-level civilian and as a cadet.

- ⁹C. An applicant's name shall be listed on an eligible register in rank order according to the final examination score, as determined by the scoring system specified in the examination announcement, and in conformance with the provisions of the Commission Rule 5 regarding examinations for original appointment. Eligible registers for original appointment shall contain such additional information as specified in Commission Rule 13.
- D. At the sole discretion of the Commission, any eligible register for original appointment may be designated, at the time it is established, as an ongoing eligible register with names of applicants to be added and merged into the register over time, in the appropriate rank order, as additional applicants are approved for placement onto the register from a corresponding ongoing examination list.
- E. Any one applicant may have his/her name entered on an ongoing eligible register for original appointment more than once. If an applicant has appropriately and successfully completed all phases of a subsequent examination cycle for a position, and if the applicant is approved for placement on the ongoing eligible register based on that subsequent examination cycle, the applicant's name shall be entered onto and merged into the register, in the appropriate rank order, without regard to and without requiring removal of any prior entry of the applicant's name onto the same register.
- F. The name of an applicant not receiving original appointment shall remain on an ongoing eligible register for original appointment for no longer than 24 months following the date of approval for entry of the name on to the register. When an applicant's name has been entered on an eligible register more than once, this time limitation shall be applied separately to each entry.
- G. At the discretion of the Commission, any ongoing eligible register for original appointment may be frozen and/or dissolved and subsequently replaced with a new eligible register established through a new or modified examination process. However, any ongoing eligible register for original appointment shall remain in existence for a minimum of one year, unless exhausted. In the event that a new eligible register is

- H. If an eligible register for original appointment is not an ongoing register, it shall remain in existence for a minimum of one year, unless the register is exhausted. If a new eligible register is not established at the end of one year, through an examination process, the eligible register shall automatically extend into the second year. A new eligible register for original appointment to a particular rank may be established, through an examination process, at any time after the first year of the life of an existing eligible register, or prior thereto if the register has been exhausted. In the event that a new eligible register is established at any time after the first year, the existing eligible register becomes void. All such eligible registers that are not ongoing registers and are not replaced (by a new eligible register established through an examination process) shall automatically expire at the end of the second year of their existence.

¹⁰**Section 3. Eligible Registers for Promotional Appointment.**

- A. When an announced examination for promotion has been completed, the Commission shall establish a corresponding eligible register for promotional appointment to the rank for which the examination was held. The name of any candidate who has successfully completed and/or passed all phases of the examination process shall be placed on the corresponding register.
- B. Names of candidates shall be listed in rank order according to their final examination score as determined by the scoring system specified in the examination announcement, and in conformance with provisions regarding promotional examinations contained in Commission Rule 6. Eligible registers for promotional appointment shall contain such additional information as specified in Commission Rule 13.
- ¹¹C. An eligible register for promotional appointment shall remain in existence for a minimum of one year. If a new eligible register is not established at the end of one year, through an examination process, the eligible register shall automatically extend into the second year. A new eligible register for promotional appointment to a particular rank may be established, through the examination process, at any time after the first year of the life of an existing eligible register. In the event that a new eligible register is established at any time after the first year, the previous eligible register becomes void. All such eligible registers that are not replaced (by a new eligible register established through an examination process) shall automatically expire at the end of the second year of their existence.

¹⁰ This proposed new section incorporates the current provisions of Section 1 (C) with additions and updates for clarification. Details regarding the contents of eligible registers are deleted from proposed paragraph B and will be moved, with updates, to Commission Rule 13.

Should two or more candidates with the same score have the same seniority in rank, the person with the greatest seniority in service shall have priority. Should candidates have the same date of appointment, the person who ranked highest based on final examination score for original appointment shall have priority.

¹³**Section 5. Notice of Change of Address or Phone Number.**
