DIVISION 11.1 GENERAL PROVISIONS

SECTION 11.1.1 INTENT

A. Promote continued economic development while mitigating the potential for adverse impacts on surrounding properties, surrounding residential uses and neighborhoods, and the physical environment;

B. Implement Comprehensive Plan and Blueprint Denver objectives to promote walkable, pedestrian environments in appropriate neighborhood contexts and zone districts;

C. Encourage and facilitate the reuse of existing structures;

D. Accommodate the special housing needs of segments of the resident population, while balancing those needs with a neighborhood’s interest in notification and public input; and

E. Encourage and facilitate implementation of sustainable activities or uses that promote long-term energy efficiency and reduce vehicle trips, such as urban agriculture, wind and solar energy facilities, and live-work and Home Occupation opportunities.

11.1.1.2 The hierarchy and structure of the use classifications, categories, and definitions in this Article 11 are intended to aid the City and code users in the interpretation of this Code over time.

SECTION 11.1.2 APPLICABILITY

All primary, accessory, and temporary uses subject to this Article’s limitations shall be established, operated, and maintained only in compliance with such limitations.

SECTION 11.1.3 ORGANIZATION

Article 11 is organized into divisions and sections that track the organization of the Use and Parking Tables found in Articles 3 through 9, as follows:

11.1.3.1 Divisions in Article 11 correspond to the same order of the use classifications (e.g., residential primary uses) found in the Use and Parking Tables.

11.1.3.2 Sections in Article 11 correspond to the specific use types (e.g., multi-unit dwelling) found within each use classification (e.g., residential primary uses), organized within the sections first by use category (e.g., household living uses) and then by listing in alphabetical order.

SECTION 11.1.4 ENCLOSURE OF USES

11.1.4.1 All primary accessory and temporary uses must be established, operated and maintained within a Completely Enclosed Structure, unless otherwise specifically allowed by this Code. The Use and Parking Tables in Articles 3-9 indicate when a use may be established, operated or maintained outside a Completely Enclosed Structure by including an asterisk “*” next to the specific use type. For example, the asterisk following the “Telecommunication Tower*” use type in the tables indicates that a telecommunication tower land use need not be enclosed.
DIVISION 11.2 RESIDENTIAL PRIMARY USE LIMITATIONS

The Use and Parking Tables in Articles 3 through 9 reference limitations applicable to permitted primary, accessory, or temporary uses. This Division contains limitations applicable to primary residential uses permitted across multiple zone districts and neighborhood contexts.

3. **Towers in Nonresidential Zone Districts**

   Towers are permitted in nonresidential zone districts and shall:
   
   a. Comply with the regulations contained herein and the zone district regulations for permitted structures in the zone district in which it is located. The dimensions of the entire zone lot shall apply and not the dimensions of the leased parcel; and
   
   b. Have a diameter of not more than 48 inches measured at the base of the tower.

4. **Antennas Not Attached to a Tower**

   Antennas not attached to a tower and their associated telecommunications support facilities may be located in any zone district on:
   
   a. Any nonresidential structure; or
   
   b. A multi-unit dwelling structure containing 8 or more dwelling units that is at least 35 feet in height; or

e. A reasonable design review fee shall be assessed at the time of submittal.

8. **Screening and Landscaping**

If a tower is within 200 feet of a Residential Zone District or Mixed Use Commercial Zone District, the installation shall provide screening and landscaping in accordance with the following:

a. Unless the Zoning Administrator finds that alternative screening is appropriate to the character of the zone district and/or landscaping, including existing vegetation, topography or structures, screening shall be provided in one of the following two ways:

   i. Solid view-obscuring landscaping not less than 6 feet in height and landscaped in accordance with the landscaping requirement of Section 11.5.2.1.C.8.b, Screening and Landscaping; or

   i. The area around the tower shall be landscaped with a buffer of plant materials that effectively screens the view of the tower base from property used for residences. The standard buffer shall consist of a landscaped strip at least 5 feet wide outside the perimeter of the fence described in Section
11.5.2.1.C.8.a.ii, Screening and Landscaping, and shall be composed of at least 50 percent coniferous or broadleaf evergreens that will reach at least 5 feet in height at maturity, and shall provide for and maintain minimal landscaping on the remainder of the zone lot.

ii. In locations where the visual impact of the tower would be minimal, or where landscaping would not reduce or alleviate the visual impact of the tower, the landscaping requirement may be reduced or waived.

iii. Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. For towers located on large, wooded lots, natural growth around the property perimeter may be considered a sufficient buffer.

D. Specific Requirements -- All Towers, Antennas and Telecommunications Support Facilities

1. The design of towers, antennas, and telecommunications support facilities shall use materials, colors, textures, screening, and landscaping that create compatibility with the natural setting and surrounding structures;

2. Signs shall be limited to those signs required for cautionary or advisory purposes only;

3. The mass of antennas or an antenna on a tower shall not exceed 450 cubic feet per user, with no one dimension exceeding 14 feet per user. The mass shall be determined by the appropriate volumetric calculations using the smallest regular rectilinear, cuboidal, conical, cylindrical or pyramidal geometric shapes encompassing the entire perimeters of the array.

E. Specific Requirements -- Towers
The following standards shall apply to all towers, excluding Telecommunications Tower - Alternative Structures not more than 50 feet in height (see Section 11.5.2.1.B.3, Applicability).

1. Setbacks

   a. Single users: Not more than 75 feet in height;
   b. Two or more users: Not more than 90 feet in height.

3. Color
Towers shall be finished in a neutral color to reduce visual obtrusiveness, subject to any applicable standards of the FAA.

Towers shall not be artificially illuminated unless required by the FAA, other governmental regulation, or as specified in the next two sentences. Towers that are used as flagpoles may be lit at night if they are flying the national flag. Ground level security lighting not more than 20 feet in height may be permitted if it does not project glare onto other properties and is designed to minimize impacts on adjacent properties.

5. Separation Requirements
The following separation requirements shall apply to all towers:
a. Tower separation shall be measured from the base of the tower to the lot line of the off-site uses and/or designated areas as specified in Table 1, except as otherwise provided in Table 1. If the requested separation distance is greater than or equal to the distance in Table 1, the Zoning Administrator can proceed to process the application hereunder. 11.5.2.3 Inventory and Tracking

The Zoning Administrator shall compile a list of towers and maintain and update the same from information furnished by all service providers. The Zoning Administrator shall issue a registration number to be affixed to and displayed on each tower. Reasonable fee as determined by the Zoning Administrator shall be assessed for an initial registration and annual inspections.

11.5.2.4 Collocation and Modifications

A. Modifications and Collocations that are not Physically Substantial

1. Any Telecommunications Tower Structure, Telecommunications Tower-Alternative Structure, Antennas Not Attached to a Tower, Telecommunications Facility, Telecommunications Facility-All Others or Base Station may be modified or reconstructed in a manner that does not substantially change the physical dimensions of such structure. A modification shall be determined to be a substantial change to the physical dimensions of the subject structure only if the modification or change meets any of the following criteria:
   a. It increases the height of the tower by more than 10% or by the height of one additional antenna array with separation from the nearest existing antenna not to exceed twenty feet, whichever is greater; for other eligible support structures, it increases the height of the structure by more than 10% or more than ten feet, whichever is greater;
   b. It involves adding an appurtenance to the body of the tower that would protrude from the edge of the tower more than twenty feet, or more than the width of the tower structure at the level of the appurtenance, whichever is greater; for other eligible support structures, it involves adding an appurtenance to the body of the structure that would protrude from the edge of the structure by more than six feet;
   c. For any eligible support structure, it involves installation of more than the standard number of new equipment cabinets for the technology involved, but not to exceed four cabinets; or, for Base Stations, it involves installation of any new equipment cabinets on the ground if there are no pre-existing ground cabinets associated with the structure, or else involves installation of ground cabinets that are more than 10% larger in height or overall volume than any other ground cabinets associated with the structure;
   d. It entails any excavation or placement outside the current site of the telecommunications facility;
   e. It would defeat the concealment elements of the eligible support structure; or
   f. It does not comply with conditions associated with the siting approval of the construction or modification of the eligible support structure or base station equipment, provided however that this limitation does not apply to any modification that is not in conformance only in a manner that would not exceed the thresholds identified in this Section 11.5.2.4.A.1.

2. Upon submission of a complete application for collocation or modification that does not substantially change the physical dimensions of the subject structure under Section 11.5.2.4.A.1, the Zoning Administrator shall approve or approve with conditions the application within 60 days. Conditions of approval may include compliance with previously imposed conditions of approval, generally applicable building, structural, electrical, and
safety codes or other laws, including this Code, codifying objective standards reasonably related to health and safety.

B. Modifications and Collocations that are Physically Substantial

1. Modifications not defined in Section 11.5.2.4.A shall be considered physically substantial. A tower may be substantially modified or reconstructed to accommodate the collocation of additional antennas under the following conditions:
   a. The tower shall be the same type as the existing tower, unless the tower is replaced by a monopole tower not more than 48 inches in diameter, provided, however that an existing alternative tower structure not over 50 feet in height may only be replaced by another alternative tower structure not over 50 feet in height;
   b. An existing tower, to accommodate the collocation of an additional antenna, may be substantially modified or rebuilt only once to a taller height, not to exceed 30 feet more than the tower’s existing height, provided, however that this Section 11.5.2.4.B shall not apply to Telecommunications Tower - Alternative Structures not over 50 feet in height;
   c. The additional height referred to in this Section 11.5.2.4.B.1 shall not require an additional distance separation as set forth in Table 2 of Section 11.5.2.1.E.6.b, Separation Requirements. The tower’s pre-modification height shall be used to calculate distance separations;
   d. The existing tower shall comply with the separations from certain uses and zones in Table 1 of Section 11.5.2.1.E.6.a, Separation Requirements;
   e. If a tower is replaced to accommodate a physically substantial collocation, only 1 tower may remain on the zone lot; and
   f. If a tower is relocated on-site in compliance with all setback requirements, and within a 25 feet radius of its existing location, under the terms and conditions of this section, it shall not be deemed a violation of the separation requirements of Section 11.5.2.1.E.6, Separation Requirements.

2. Antennas may be attached to an existing tower that is accessory to a police station, fire station or hospital, and said tower may be substantially modified to a height not to exceed 135 feet above grade. No part of any collocated antenna shall be more than 90 feet above grade.

C. Substantial Modifications to Towers not in Conformance

Antennas may be attached to an existing tower that is not in conformance with all the requirements of Section 11.5.2.1, [Limitations Applicable in] All zone districts, and said tower may be substantially modified, with the following limitations:

1. The tower is of the same type as the existing tower, unless the tower is replaced by a monopole tower not more than 48 inches in diameter or a tower that meets the definition of a Telecommunications Tower - Alternative Structure, and;
2. The tower with the attached additional antenna as substantially modified must meet the requirements of Section 11.5.2.1.D., Specific Requirements - All Towers, Antennas and Telecommunication Support Facilities, and Section 11.5.2.1.G, Specific Requirements - Telecommunication Support Facilities.

11.5.2.5 Alternative Procedure for Separation Allowances

DIVISION 11.12 USE DEFINITIONS

This Division 11.12 contains definitions of primary, accessory and temporary uses permitted in this Code. The Division is organized in the same order as uses are presented in the Use and Parking Tables in Articles 3 through 9, with specific use definitions organized by sections and sub-sections that align with the primary use classifications and use categories, followed by sections for accessory uses and temporary uses.

SECTION 11.12.1 PRIMARY USE CLASSIFICATION

11.12.1.1 All primary or principal land uses in Denver are organized into one of the following five general land use classifications:
   A. Residential Uses
   B. Civic, Public & Institutional Uses
   C. Commercial Sales, Service & Repair Uses
   D. Industrial, Manufacturing & Wholesale Uses
   E. Agriculture Uses

11.12.1.2 Uses are further organized into use categories and specific use types listed under each general land use classification. A definition of a specific use type shall also meet the definition of the use category in which it falls. The Use and Parking Tables in Articles 3 through 9 are all similarly organized into the above five general land use classifications, use categories and specific use types.

11.12.1.3 The general land use classifications and use categories listed in this Division are intended to be mutually exclusive; that is, a use classified into one use category, such as “lodging accommodations,” cannot be classified in a different use category, such as “residential care,” unless otherwise expressly permitted by this Code.

SECTION 11.12.2 PRIMARY RESIDENTIAL USES

11.12.2.1 Definition of Household Living Use Category

   A. Definition of Category
      1. Household Living is defined as residential occupancy of a “dwelling unit” by a single “household”. Tenancy is arranged on a month-to-month or longer basis.

   B. Definitions of Related Terms
      1. Dwelling Unit
         One or more Rooms constituting a unit for permanent occupancy, having but one kitchen together with facilities for sleeping, bathing, and which unit occupies a structure or a portion of a structure. A Dwelling Unit may be either Primary or Accessory, defined as follows:
            a. Primary Dwelling Unit
               A Dwelling Unit that contains a primary residential use.
            b. Accessory Dwelling Unit

      2. Non-Profit Housekeeping Unit.
         A household comprised of persons who live together as a family or as the functional equivalent of a family, and who share household activities and responsibilities, such as meals, chores, rent, and expenses. The choice of specific adults comprising the single non-profit housekeeping unit is determined by the members of such housekeeping unit rather than by a landlord, property manager, or other third party. Members of a single non-profit
housekeeping unit are not required to seek services or care of any type as a condition of residency. All members of the non-profit housekeeping unit jointly occupy the entire premises of the dwelling unit.

3. Household
   a. A “household” is either:
      i. A single person occupying a dwelling unit, plus any permitted domestic employees; or
      ii. Any number of persons related to each other by blood, marriage, civil union, committed partnership, adoption, or documented responsibility (such as foster care or guardianship), plus any permitted domestic employees, who all occupy a dwelling unit as a single non-profit housekeeping unit; or

11.12.2.2 Definition of Congregate Living Use Category

A. A structure or structures providing Residential Occupancy for Persons who do not live in a Household according to Section 11.12.2.1.B.3, Household. A Congregate Living use may occur within a self-contained Dwelling Unit. A Congregate Living use may also, such as with a tiny home village, occur within multiple structures where no one or not all structures contain a self-contained Dwelling Unit, but all structures comprising the use together provide residents with facilities for sleeping, bathing, cooking and preparing food. This use category includes groups of Persons who each have separate contracts or agreements with property owners, who do not jointly occupy the entirety of a dwelling unit, or who jointly occupy the entirety of a dwelling unit but who exceed the maximum number of adults permitted in a household as defined in Section 11.12.2.1.B.3, Household. Tenancy is arranged on a month-to-month or longer basis. Residents of a Congregate Living use may share sleeping units, and may have shared cooking, bathroom and common areas, or some combination of personal and shared facilities. Residents

11.12.2.3 Definition of Residential Care Use Category

A. A Residential Structure or structures where guests receive treatment, supervision, emergency shelter, personal care, protective oversight, or other similar care or services, from staff on-site as a condition of the guests’ residency. This definition excludes care provided by domestic employees or care workers in a private home that meets this Code’s definition of Household Living or Congregate Living. For purposes of this definition, a “guest” is a person who stays overnight, regardless of total length of stay. For purposes of this definition, staff and volunteers who regularly return to another place of primary residence, but who stay overnight while working or volunteering, shall not be considered “guests.” Tenancy may range from overnight to 30 days or longer.
