Colfax BRT Refined Station Design Concept
Public Feedback on BRT Station Design: Key Themes

• Prioritize **personal safety** in design of all features (lighting, protection, transparency)
• Ensure shelters provide **adequate protection from weather**
• Create opportunities to **customize stations with local, public art and color** to reflect the unique flavor of Colfax communities
• Consider using **materials that absorb traffic noise** and **transparent materials** to aid visibility
• Ensure all designs incorporate **sustainable elements** (e.g., solar) and **trees**
• Incorporate **access to key rider information** including maps, bus ETAs, and real-time tracking of connecting lines.
