

THE LAWRENCE SWOOP* INVESTING IN PEDESTRIAN SAFETY

BY CONVERTING DOWNING AND MARION TO TWO-WAY,
IMPROVING 5 INTERSECTIONS, AND BUILDING NEW SIDEWALKS.

WHEN: FOUR PHASES (NOVEMBER 2ND 2020 - MARCH 12TH 2021)

WHY:

This part of northeast Denver has long been dangerous for pedestrians and drivers. The current site is in what the city calls a High Injury Network (HIN). These are a network of streets that represent only 5% of Denver's roads, but are responsible for 50% of traffic deaths! To promote better pedestrian safety and flow of traffic as a part of the 38th & Blake Neighborhood Plan, Downing St. and N. Marion St. will be converted to two-way streets and a new network of signalized lights and sidewalks will be installed.

SCOPE OF WORK

- Install two new traffic lights and one pedestrian crossing signals at the intersection of Lawrence, 35th and Downing
- New Curb, Gutter, Sidewalk and paving at the intersection of Lawrence, 35th and Downing
- New Paving on Downing
- New traffic light at Downing and Walnut
- New signage and restriping of Downing in order for Downing to become two way
