THANK YOU!

Temporary bike and pedestrian path detour from Oct. 6, 2021 to May 1, 2022
Washington Street Status

Eric Bracke, DOTI
Washington Area Connectivity Study

Beth Vogelsang, OV Consulting
Purpose:

To develop a cohesive planning vision for an interconnected, walkable and safe mobility network for the area.

- Building on previous planning efforts
- Ensuring that public and private investments interact
- Identifying immediate and longer term action items
Washington Area: Barriers to Connectivity and Place
Multiple “Places”
Restitch Community
Where do you see the biggest or most critical gaps in connectivity?
What other aspects of connectivity are important to you?

Safe sidewalks along 44th & 45th

Placemaking in the sense of honoring the history of the neighborhood and residents

Safe pedestrian/bicycle access to basic goods and services

Equity considerations are intertwined with infrastructure investments

E. 45th Avenue is Historic Globeville Main Street – Let’s plural “main streets”.

It might be helpful to include icons of major destinations in the area to show how the planned projects are supporting connectivity to where people want to go.
Are there additional planned or visionary projects we need to add?

Plaza/Gathering Space
Sidewalks
Bicycle Network

Denver Moves plus recently planned connections
Existing and Planned Network
