

Monique Didier

Chief Operating and Financial Officer

Monique has worked within the accounting industry for over 20 years spanning both the public and private sectors. After graduating from Metro State in 1999, she started out as an accounting clerk working her way up to my current position as the Chief Operating and Financial Officer for DEDO.

Prior to joining DEDO, Monique was the Director of Admin and Finance for Tri-County Health Department (TCHD). She led the overall operational and financial functions of the agency. During the COVID-19 Pandemic, her team developed and implemented the financial processes need to ensure the agency was able to provide the equitable response measures needed to all members of the community.

Before moving over to TCHD, Monique worked for the Colorado Department of Public Safety as the Accounting Supervisor for the Department of Homeland Security and Emergency Management. She provided leadership and oversight of the accounting functions within the Grants and Finance Section. They administered budget and financial services for grants totaling well over \$500M.

Monique was born in Harvey, Illinois and moved to Colorado when she was in middle school. She received her Bachelor's in Accounting from Metro State and then received Master's in Accounting from Southern New Hampshire University. She currently lives in Aurora with her husband Steve, and is a momma of 4 (27, 25, 8, and 6). Her 8-year-old is their special guy whom they fostered and adopted through the Denver County Foster Care System.
