

2022 Denver Energy Code - Training Q&A

Residential Contractor Training

Part One 6/22/2023

Question	Answer
Is it known when the previous webinars from 5/25, 6/1 and 6/8 will be available online?	We're working to get the videos uploaded as soon as possible. Videos are being edited, uploaded, and indexed so that you don't have to watch the entire webinar to find information on a specific topic. We hope to have the past webinars uploaded in the coming weeks and everyone who registered for the webinar will be notified via email once the recordings are posted. All recordings will be posted to www.denvergov.org/energycode
Is Grade 1 insulation installation mandatory or prescriptive?	Mandatory - Grade 1 installation applies to all pathways - reference DEC R303.2.
