## The vision of the Denver Moves: Downtown plan...

*The Downtown Denver transportation system will more productively move people and goods to support a healthy, equitable and people-oriented city center.*

### Goals:

Create mode-shift by building a transportation system that is connected through a variety of mode choices

Make downtown streets safe

Design streets to support healthy, people-oriented places

Create a flexible and adaptable street network

Make downtown accessible and easy to navigate

Provide a transportation system that supports a thriving downtown economy
