### Corrected Annual Report: Federal Fiscal Year 2020

During federal Fiscal Year 2020 (01 October 2019 through 30 September 2020), Wildlife Services personnel in Colorado conducted the following wildlife damage management activities on behalf of the Denver Parks and Recreation (DPR) under agreement # 18-7308-6942-RA (Denver Control Number PARKS-201844862-01/201951777).

- Total hours worked: 799
- Number of personnel involved: 9 (6 Technicians and 3 District Supervisors)
- Outreach: assisted DPR with Canada goose egg oiling training on 3/07/20
- Number of parks worked: 9 (Barnum, Berkeley Lake, City, Garfield, Garland, Harvey, Rocky Mountain Lake, Sloan's Lake, and Washington)
- Number of Canada geese lethally removed: 512 (United States Fish and Wildlife Service Permit Number MB71232D)
  - Sloan's Lake (7/07/20): 227 lethally removed, at least 150 left on site
  - Harvey Park (7/08/20): 51 lethally removed, at least 10 left on site (all 10 were released on site)
  - Garfield Lake Park (7/09/20): 125 lethally removed, at least 34 left on site (including 25 released on site)
  - Garland Park (7/10/20): 109 lethally removed, at least 40 left on site (including 23 released on site)
- Meat testing conducted: samples of Canada goose meat from each of 4 parks were tested for lead, glyphosate, and aminomethylphosphonic acid (AMPA)
  - Lead: not detected in any samples
  - Glyphosate: not detected in any samples
  - AMPA: not detected in any samples
- Meat Donated on behalf of DPR: 350 pounds of Canada goose meat was donated to Metro Caring on 9/25/20. All meat was processed by a facility licensed by the Colorado Department of Agriculture and all meat tested negative for lead, glyphosate, and AMPA as noted above.

Please contact District Supervisor Sharon Scully [REDACTED] or Wildlife Biologist Todd Felix if you have any questions or would like more information.

Sincerely,

**TODD FELIX**
