

Larimer Street Bikeway & Two-Way Conversion

Between Speer Boulevard and 26th Street

- Two-Way Travel
- New Transit Service
- A Better Larimer Square

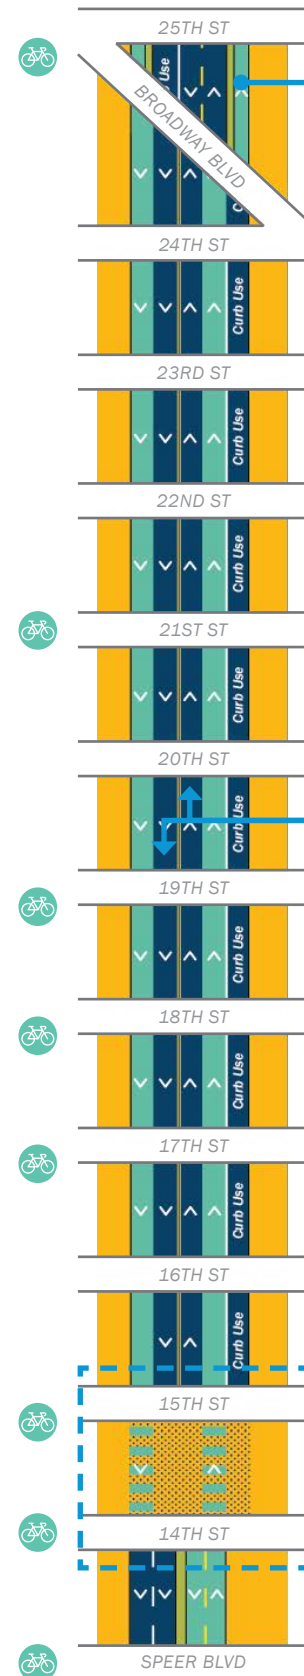

This project envisions Larimer Street as a pedestrian and bike street with two-way travel lanes. Eventually, Larimer Square could be closed to automobiles and with limited commercial loading times, which would enhance the public space and expand public space opportunities.

Larimer Street is bookended by two vibrant retail districts—Larimer Square on the south and an emerging restaurant and entertainment district in RiNo on the north. Further, it is the most direct connection between the Auraria Campus and downtown.

Larimer Street Corridor

NOT TO SCALE

Install Protected Bike Lanes
Creates a shared street north of Broadway to the RiNo neighborhood

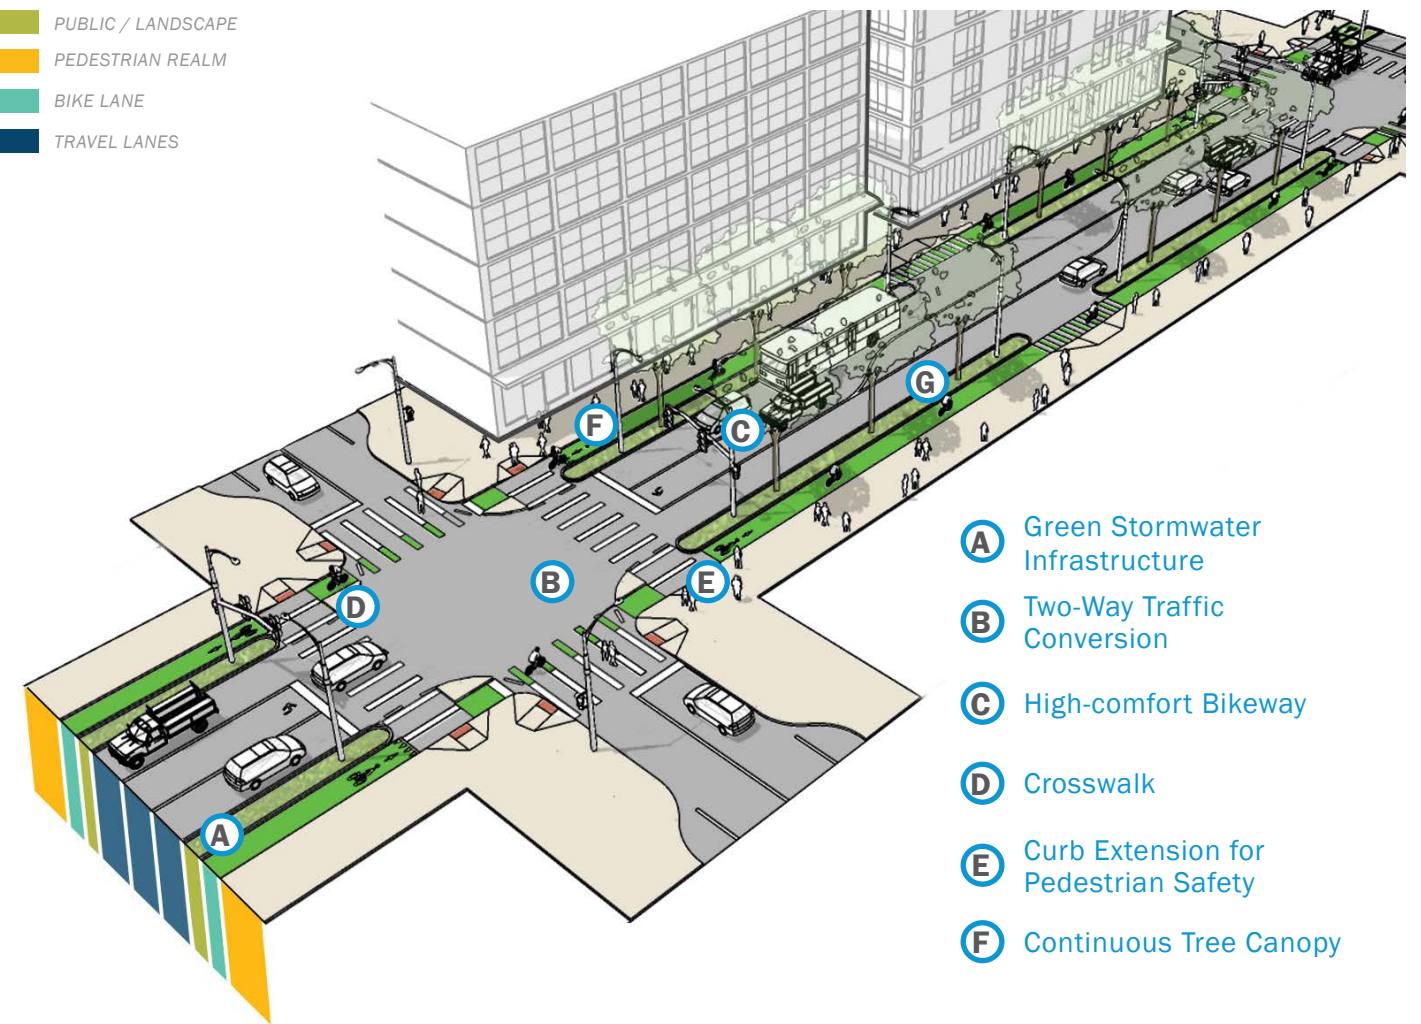

Convert Street to Two-Way Traffic
Provides greater navigability

Install Protected Bike Lanes between Broadway and 18th
To provide additional bicycle connectivity

Close Larimer Square to Traffic
Boosts placemaking and pedestrian/bicyclist focus

Typical Block Layout

- PUBLIC / LANDSCAPE
- PEDESTRIAN REALM
- BIKE LANE
- TRAVEL LANES

- A** Green Stormwater Infrastructure
- B** Two-Way Traffic Conversion
- C** High-comfort Bikeway
- D** Crosswalk
- E** Curb Extension for Pedestrian Safety
- F** Continuous Tree Canopy

2022 Amendment:

*The original diagrams in this plan showed the recommendation of transit and bicycles on Larimer Street. In 2020 during the COVID-19 Pandemic, Larimer Square closed to vehicles including transit. Larimer Square is expected to remain permanently closed to vehicles. In addition, Larimer Street between the Auraria Campus and 14th Street was redesigned through a stakeholder process. The outcome of the redesigned cross-section for Larimer and the ongoing closure required the transit recommendations to shift to Blake and Market Streets which has been updated in the “Lower Downtown Bikeways” signature project on page 69. This plan and associated diagrams for Larimer Street have been updated to reflect this change.
