

Office of Human Resources
Internal Auditor Information Systems Lead AO – CV3297
THIS IS A PUBLIC DOCUMENT

General Statement of Duties

Performs lead level work over professional IS auditors and performs audit work applying generally accepted government auditing standards (GAGAS) and maintaining independence and objectivity while conducting integrated and information technology audits of IT general controls, information systems, and processes of City departments and contract providers.

Distinguishing Characteristics

The Internal Auditor Information Systems Lead AO is distinguished from the Internal Auditor Information Systems Senior AO, which performs full performance level auditing work of information systems; and, is distinguished from the Internal Auditor Information Systems Manager AO, which performs professional level supervision over information systems auditors and support staff.

Essential Duties

Oversees and conducts information technology audits and evaluates City organizations and programs that include, but are not limited to effectiveness, efficiency, public policy assessment, governance, and internal control and compliance objectives as defined by Generally Accepted Government Auditing Standards.

Develops or modifies work plans, methods, and procedures, determines work priorities, and develops work schedules to provide adequate staff coverage.

Provides work instruction and assists employees with difficult and unusual assignments.

Assigns and distributes work, reviews work for accuracy and completeness, and returns assignments with recommendations for proper completion.

Resolves problems encountered during daily operations and determines appropriate solutions.

Contributes to the development of the performance enhancement plan, documents performance, provides performance feedback, and furnishes information for the formal performance evaluation.

Responds orally to informal grievances and relays information to the supervisor.

Documents and records situations, which may be cause for disciplinary action and provides this information to the supervisor.

Conducts IT audits of all aspects of information technology management including, but not limited to, IT general controls, governance, risk management, information security, network operations, application development, application systems, project management, and vendor management.

Evaluates and designs various auditing and accounting tests, including data analytics (ACL) and other audit software tools, to independently support audit tasks and to determine the reliability, integrity and internal control of the financial and operational systems for compliance and performance purposes.

Prepares audit reports with recommendations for corrective action of applicable IT audit and security frameworks, rules, and standards.

Evaluates organizational operations and/or program results for potential areas of improvement such as operational efficiency, technology optimization, decreased turnaround times, streamlining of processes, and improved customer service with the goal of providing maximum value for resources expended.

Assists the Manager/ Supervisor with risk assessments for information technology audits and the annual risk assessment activities.

Gathers, examines, and analyzes information about organization to be audited for performance to learn best practices and performance benchmarks that are applicable to that organization.

Maintains electronic work papers, schedules, and reports and provides documentation (in TeamMate) to support audit findings and recommendations.

Performs other related duties as assigned.

Employees may be re-deployed to work in other capacities in their own agencies or in other City agencies to support core functions of the City during a City-wide emergency declared by the Mayor.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.
