*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

After several years of working with the community, the vision plan was completed in 2023. This new 2.0 acre park is starting final design with construction documents scheduled for the last quarter of 2024. The new park will fill a previous service gap in Denver Parks 10-minute walk to a park for the University Hills neighborhood.

The vision plan consists of a neighborhood-level playground and play area, axial walks, lighting, a shaded structure for picnicking, seating, 1/2 basketball courts, and open green space. The center of the park is envisioned as a pollinator prairie space. The park is funded by the Rise Bond.

Vision Plan developed through community engagement
