*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

The parcel of land located across the street from Kepner School will be transformed into a park aimed at older youth. Park amenities include a skate area, basketball area, green infrastructure, custom shade structures with integrated benches, landscaping, and a strong emphasis on public art and engaging youth within the community. The project is part of a One-Build through DOTI and includes pedestrian safety and green infrastructure improvements to W. Kentucky Ave. and Irving Street.

New basketball court with mural wall from local Denver artist

Skating features utilized by Denver youth
