

Office of Human Resources
IT Technician II - DI3141
THIS IS A PUBLIC DOCUMENT

General Statement of Duties

Performs standard level Information Technology (IT) technical work in desktop support and/or help desk support.

Distinguishing Characteristics

IT Technician II is distinguished from the IT Technician I because this position is an entry-level class designed to train incumbents to perform IT technical work on projects of limited scope and complexity. In addition, the IT Technician I perform duties under close instruction or assists higher level technicians with technical support.

In addition, this class is distinguished from the IT Technician III because the primary duties of this position involve full performance level IT technical work. For instance, the IT Technician III is responsible for training, assigning and reviewing the work of lower level IT Technicians. The IT Technician III also performs technical support on complex problems that have not been previously handled by other IT technicians or handles large hardware or software upgrades and installations that may impact an agency or the entire city.

Finally, this class is distinguished from the IT Communications Technicians because the main duties of this position involve planning, configuring, and supporting communications infrastructures. This class is also distinguished by the following characteristics.

Essential Duties

Installs and repairs desktop hardware and software; installs/uninstalls voice and data systems; and processes work orders for voice, video, and data users.

Performs technical support in a formal or informal help desk setting to users with common hardware and software problems, which includes: logging, troubleshooting, testing, adjusting, resolving, or referring problems to the appropriate Information Technology resource.

Acts as a liaison between user group and the Information Technology unit to communicate problems and possible solutions.

Maintains computerized inventory of voice and data equipment and specialized services for users.

Maintains technical procedures, documentation, operational instructions and/or project or work order status.

Reads and understands technical or other complex materials required for the job.

By position tests in-house or vendor developed software and software upgrades for user requirements and documents errors or discrepancies for correction.

Performs other related duties as assigned.

Employees may be re-deployed to work in other capacities in their own agencies or in other City agencies to support core functions of the City during a City-wide emergency declared by the Mayor.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.

Competencies

Customer Service - Interacts with customers in a friendly and professional manner, works to resolve issues quickly and effectively, and is knowledgeable about products and services.

Oral Communication - Expresses information to individuals or groups effectively; taking into account the audience and nature of the information; makes clear and convincing oral presentations; listens to others, attends to nonverbal cues and responds appropriately.

Reading – Understands and interprets written material, including technical material, rules, regulations, instructions, reports, charts, graphs, or tables; applies what is learned from written material to specific situations.

Technical Competence – Uses knowledge that is acquired through formal training or extensive on-the-job experience to perform one's job; works with, understands, and evaluates technical information related to the job; advises others on technical issues.

Technology Application – Uses machines, tools, instruments, or equipment effectively; uses computers and computer applications to analyze and communicate information in the appropriate format.
